

## Which are the coolest dogs?

WeRateDogs is a Twitter account (@dog\_rates) that uploads pictures of all kinds of dogs and rates them using a scale of 10, but they are usually rated more than 10, like 15/10.

I analyzed data from 3 different sources to tell you which dogs are the coolest. The first source is a database given by WeRateDogs, the second is based on a machine learning software that analyzes the photos uploaded and determinates the breed of each dog, and the third one is from Twitter API.

I had a great time cleaning the data so it could be of high quality and tidy, just for you guys... and well I am also a dog lover so I quite enjoy it too.

Let's answer some questions now...

### Which is the most popular dog in the Twitter account WeRatedogs?

If you want to die of tenderness, just look at the most popular (the one with more likes) dog in this account, that is participating in a pride parade to support its moms. Isn't it cute? I support each one of the people that clicked in the heart icon of this photo.

**Which dog is the best rated by WeRateDogs?**

The dog that is best rated is definitely from United States. He is a clear example of a 4<sup>th</sup> of July with Uncle Sam and he is rated with the highest rating of all times (1776/10). Isn't it a bit too much?

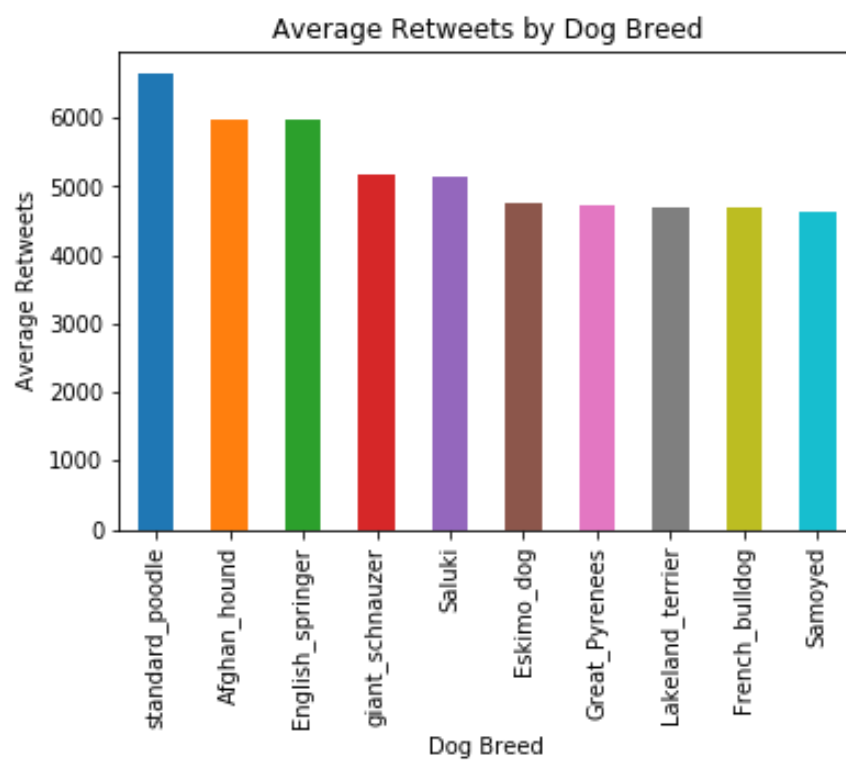

**Which dog breed has more retweets?**

People enjoy retweeting things they find amazing, informative, or simply want to share with their friends because they are beautiful. In this case, I am guessing that the popularity of this dog and why people retweeted so much comes from it's owner. Just take a good look at the photo below, maybe you can recognize him.

There are other dog breeds that are also retweeted a lot, such as Afghan Hound and English Springer.

Do you want to show off your pet? Just send your dog's picture to @dog\_rates and maybe your loyal friend could be on my analysis next time.
